SKILLS

Languages: Python, HTML, CSS, Javascript

Frameworks: Bootstrap, TailwindCSS, React js

Tools & DBs: Git & Github, DialogFlow, FireBase, Action on Google, Jupyter Notebook, Google Colab, Google Cloud, Azure, Postman APIs

Tech Stacks: Web Development, Cloud Computing, Artificial Intelligence, IOT

PROJECTS

Voice Based Pacman Game

- **Intro:** We observed that there were not many games designed for PWD folks and hence decided to create something for them and hence we have Updated the Pacman game with Voice Instructions and hence you don't need to use fingers for the movement of the Pacman when you can easily do so by giving instructions verbally like: Move left / Left/ Right/Up/Down. It can also be helpful for the victim of Parkinson's disease, A disorder of the central nervous system that affects movement, often including tremors.
- **Tech Stacks:** JavaScript, HTML5, CSS3, Alan AI

Holistic MediaPipe

- **Intro:** It can recognize any human who is in-front of the cam and it can create a holistic frame over that human in screen which can help computers and machines to recognize humans
- **Tech Stacks:** HTML, CSS, Javascript, MediaPipe, AI

EducativeLogs

- **Intro:** An online web based platform where any Org, NGO, Educator, Team, etc. can provide free resources for educating people for free through Blogs, Videos, etc.
- **Tech Stacks:** HTML, CSS, Javascript, PHP

AI Universe

- **Intro:** An online web based platform for helping people educate and know more about artificial intelligence and its importance
- **Tech Stacks:** HTML, CSS, TailwindCSS
