A 13 years Old Self Taught Programmer who is a passionate contributor towards Communities, Opensource & Hackathon. I have mentored 100+ people and contributed in 50+ communities & hackathons

EDUCATION

Mahatma International School, New Panvel
(Ongoing) | 9th Grade

EXPERIENCE

- 2021 Tech Vraksh**
Full stack dev Intern
- Worked with the core team on Full Stack Web Development while collaborating with other interns & core team to learn and create an awesome outcome.
- 2021 FreeCodeCamp**
Author (Publications)
- worked on creating the content for Free Code Camp articles, etc..

PROJECTS

- 2021 Voice Based Pacman Game (JavaScript, HTML, CSS, Speechly API, Kubernetes & Docker)**
- Intro: We observed that there were not many games designed for PWD folks and hence decided to create something for them and hence we have Updated the Pacman game with Voice Instructions and hence you don't need to use fingers for the movement of the Pacman when you can easily do so by giving instructions verbally like: Move left / Left/ Right/Up/Down. It can also be helpful for the victim of Parkinson's disease, A disorder of the central nervous system that affects movement, often including tremors. at last, it's been deployed & hosted through Kubernetes & Docker.
- 2021 Holistic MediaPipe (HTML, CSS, Javascript, MediaPipe, AI)**
- Intro: It can recognize any human who is in-front of the cam and it can create a holistic frame over that human in screen which can help computers and machines to recognize humans

ACHIEVEMENTS
